PREVIOUS FY16 GUIDANCE

UPDATED FY16 GUIDANCE

Revenues & volumes

- Addressed mail volumes decline expected to be closer to the -3% bound of the initially forecasted range [-3% to 5%], but continued negative mix effect (registered mail volumes decline) makes the flat revenues guidance difficult to achieve
- Revenues generation initiatives in Financial Services (e.g. payments) and Express & Parcels (e.g. modular offer) underway in Portugal and Spain, but with limited impact in 2016

OI DAILD I I 10 GOIDANOL

volumes in 4Q16 (-4.2% in FY16) with notable impact of bank holidays in the period (3 less working days vs. 4Q15) results in 4% to 5% drop in FY16 revenues
 Revenues generation initiatives in Mail (e.g. new

Higher than expected decline in addressed mail

Revenues generation initiatives in Mail (e.g. new advertising mail offer), Financial Services (e.g. payments), Banco CTT (e.g. consumer credit & mortgage offers), and Express & Parcels (e.g. modular offer) now all underway in Portugal and/or Spain, but with no real impact on revenues in 2016

Operating costs & EBITDA

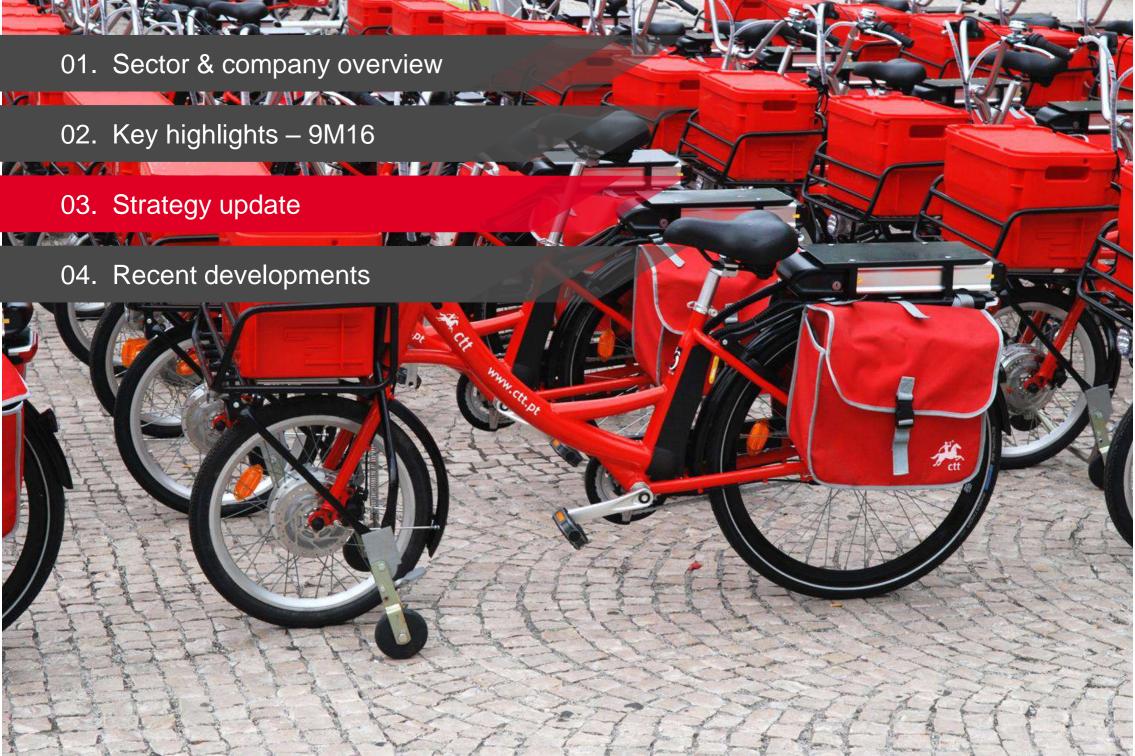

Dividend

- Recurring operating costs decline as a result of efficiency measures, which has enabled CTT to partially absorb Banco CTT costs and the decline in revenues
- FY16 recurring EBITDA (excluding Banco CTT) guidance remains challenging, but resilient 3Q16 performance provides a strong base for 2H16
- Despite the challenging year, the Board is confident that it will be able to propose a minimum dividend of €0.48 per share for 2016, payable in 2017

- Continuous strong focus on efficiency management drives a decline in FY16 recurring operating costs and enables the Company to partially compensate for the weaker than expected revenues performance and absorb Banco CTT costs
- Mid-single digit decline in FY16 recurring EBITDA (excluding Banco CTT)
- Despite this update, the Board confirms that it will be able to propose a minimum dividend of €0.48 per share for 2016, payable in 2017
