Mail volumes were strongly affected by the restrictions on operations and movement of cargo, businesses and individuals, as a result of the COVID-19 pandemic

Mail volumes

million items; % change vs. prior year

- Several large clients' statements deliveries and advertising mail campaigns were delayed or cancelled in Mar-20, as only essential services were operating in Portugal
- Registered mail was affected by delays in tax notices and notifications from courts in Mar-20 (related to the declaration of the state of emergency in Portugal)

• International mail was severely impacted by the reduction in global air freight capacity from the end of Feb-20 onwards, especially out of China

Portuguese parcels and public debt placements benefited from a strong start to the year

Parcels volumes

million items; % change vs. prior year

- Portuguese parcels volumes benefited from strong B2C growth, driven by e-commerce, despite the B2B volumes decline in Mar-20
- Strong capture of B2C volumes in Mar-20 in Spain, albeit at lower margins, mitigated the loss of a large client in Apr-19 and the B2B volumes decline as a result of the pandemic

Public debt placements

Credit to clients

€million

- Mortgage activity remained resilient, despite the temporary 50% reduction in business hours in the Retail network since mid-Mar-20

UUVVEARS 12

Growth in revenues, underpinned by the organic & inorganic contribution of Banco CTT and the strong performance by Financial Services & Retail in the first two months of the quarter

Revenues breakdown

Revenues

• Excluding the inorganic impact of 321 Crédito, revenues declined by €4.9m (-2.8%) as increases in Banco CTT net interest income (+€1.6m) and fees & commissions income (+€1.2m) and the growth in revenues from the sale of public debt products (+€2.6m) were unable to offset the higher-than-expected Mail revenues decline, provoked by the COVID-19 pandemic

¹ Including Central Structure.

²The business line "Retail sales" of the Mail & other business unit migrated to the Financial Services & Retail business unit in 1Q20 (proforma figures presented for 1Q19 throughout the presentation).

Operating costs, excluding the inorganic contribution of 321 Crédito, were practically flat

- Staff costs, excluding 321 Crédito, increased by €1.0m (+1.1%), mainly due to a one-time cut in the phone subscription fee benefit (€0.9m) in Mar-19, as communicated at that time. COVID-19 led to a €0.5m reduction in the utilization of the employee healthcare plan in the last 2 weeks of Mar-20, fully offset by hiring of temporary staff to cope with the pandemic
- ES&S and other costs, excluding 321 Crédito, were practically flat as the €1.0m reduction in marketing costs was offset by an increase in direct costs related to the capture of new B2C clients and the increase in related parcels volumes in Portugal. Regulatory costs, related to the new quality of service requirements, increased by €0.4m. The abovementioned requirements were suspended since the declaration of the state of emergency in Portugal (*force majeure*)

¹ Excluding Specific items & IFRS 16 impacts, depreciation, amortization, impairments and provisions. ² Including Central Structure.

³The business line "Retail sales" of the Mail & other business unit migrated to the Financial Services & Retail business unit in 1Q20 (proforma figures presented for 1Q19 throughout the presentation).

03 Outlook update

FY20 outlook update

Apr-20 showed encouraging signs of stabilization in some areas, although mail and financial services remain under significant pressure

Express & Parcels

Parcels already at peak levels, due to B2C growth, albeit with lower margins. E-commerce adoption increasing at a rapid pace in both Portugal & Spain

Banco CTT

As at end of Apr-20, **circa 5% of all mortgage and 7% of all auto loans contracts** had received requests for payment holidays, as per applicable decree law or industry moratoria, related to COVID-19 measures

Financial Services & Retail

Slight improvement in the subscription rate of public debt products registered in Apr-20

Opex & Capex savings

Revising Capex guidance downwards to €30m for 2020, while maintaining investments in Express & Parcels automation. **Opex reduction focused on ES&S costs**, temporary work, marketing & consulting spending

Balance Sheet and liquidity

CTT will continue to **prioritize cash reserves and treasury flexibility**, currently in the process of **accessing additional credit lines**

Addressed mail volumes

Significant reductions in letter (statements), international & especially advertising mail are expected to lead to **double-digit addressed mail volumes decline for the year**

The full impacts of Covid-19 on FY20 revenues & earnings guidance currently cannot be accurately and reliably quantified. CTT will provide an update on guidance as soon as it is possible to do so
