CTT - Correios de Portugal, S.A.

1st Quarter 2023 Consolidated Results

- **Revenues¹** reached €241.8m in 1Q23 (+€7.0m; +3.0% y.o.y), growing across all business units, except Mail & Other, broken down as follows: Financial Services & Retail (+€16.8m; +141.6% y.o.y); Banco CTT (+€6.0m; +21.4% y.o.y); Express & Parcels (+€3.3m; +5.4% y.o.y); and Mail & Other (-€19.1m; -14.3% y.o.y).
- **Mail & Other** was negatively impacted in 1Q23, when compared with 1Q22, by two effects that occurred in that period: (i) the revenues from the laptop sale project (€21.5m) in the business solutions segment in 1Q22; and (ii) additional revenues from international outbound mail in February 2022 due to the rerun of legislative elections in the European constituency (€3.5m).
- **Express & Parcels** revenues reached €64.7m in 1Q23 (+€3.3m), achieving a quarterly growth in absolute terms similar to the annual growth of 2022 compared to 2021.
- **Banco CTT** continued to grow in 1Q23, with a positive performance of the net interest income, which amounted to €22.0m (+€5.6m; +34.2% y.o.y), underpinned by the growth of the consumer credit portfolio (auto), mortgage and other loans.
- **Financial Services & Retail** revenues registered a positive evolution in 1Q23, continuing the trend that began in 2022, as a result of the greater attractiveness of public debt certificates, especially savings certificates, in a context of interest rates more favourable to this savings product.
- **Recurring EBIT** stood at €25.7m in 1Q23 (+€19.0m; +285.3% y.o.y) with a margin of 10.6% (2.8% in 1Q22). It grew in all business units, except Express & Parcels.
- **Operating cash flow** stood at €44.2m in 1Q23 (+€33.8m; +326.4 % y.o.y).
- **Net profit²** of €16.1m in 1Q23, an increase of €10.7m vis-à-vis 1Q22.

1. Operational and Financial Performance

Consolidated revenues

CTT's **consolidated revenues** amounted to €241.8m in 1Q23, an increase of €7.0m (+3.0%) compared to 1Q22 that reflects the growth in all business units, except Mail & Other, broken down as follows: Financial Services & Retail (+€16.8m; +141.6% y.o.y); Banco CTT (+€6.0m; +21.4% y.o.y); Express & Parcels (+€3.3m; +5.4% y.o.y); and Mail & Other (-€19.1m; -14.3% y.o.y).

Mail & Other

In 1Q23, the **revenues of Mail & Other** amounted to €114.4m (-€19.1m; -14.3% y.o.y). This decline versus 1Q22 was the result of two factors: (i) the revenues from the laptop sale project (€21.5m) in the **business solutions** segment in 1Q22; and (ii) additional revenues from **international outbound mail** in February 2022 due to the rerun of legislative elections in the European constituency (€3.5m).

Excluding those effects, the revenues of this business unit would have grown in 1Q23 (+€5.9m; +5.4% y.o.y).

In 1Q23, **transactional mail revenues** reached €92.0m (+€2.3m; +2.5% y.o.y), mainly due to the very positive performance of **registered mail** revenues (+€5.0m; +16.0% y.o.y) boosted by the growth of contractual customers, especially the government and banking & insurance sectors. **International outbound mail** decreased by €2.5m (-19.4% y.o.y) penalised by the additional revenues from the legislative elections in 1Q22. Excluding this impact, the revenues from international outbound mail would have grown by €1.0m (+10.0% y.o.y). **International inbound mail** posted a growth of €0.2m (+3.7% y.o.y) as a result of the increase in revenues generated by the new offer aimed at international integrators, which offset the decline that has been observed in postal operators (terminal dues). There was a decline of €0.3m in **ordinary mail** (-0.8% y.o.y) and €0.2m in **priority mail** (-9.8% y.o.y) while **green mail** stabilised (+0.1% y.o.y).

The remaining business lines posted: (i) growth in **parcels of the universal postal service** (+€0.2m; +12.5% y.o.y), **editorial mail** (+€0.0m; +0.5% y.o.y) and **other mail products and services** (+€0.4m; +52.4% y.o.y); and (ii) decline in **advertising mail** (-€1.2m; -27.5% y.o.y) and **philately** (-€0.1m; -7.4% y.o.y).

In **philately**, it is noteworthy the issue of the 1st Portuguese Crypto Stamp under the motto "Collect the Future" in both physical and NFT (Non-Fungible Token) format.

In 1Q23, **business solutions** recorded revenues of €11.4m (-€20.8m; -64.7% y.o.y). However, excluding the effect of the additional sale of laptops that took place in 1Q22 this segment would have grown €0.7m (+6.5% y.o.y). CTT continues to reinforce its focus on the **Business Process Services** and **Contact Center** areas by attracting and implementing new businesses in different sectors. Of note is the significant growth in: (i) the solution of **management of administrative offences and administrative proceedings**, as new municipalities have joined it; and (ii) **digital components** with the provision of services for sending documents (invoices) with Qualified Electronic Signature pursuant to Decree-Law no. 28/2019, of 15 February, with CTT currently producing and sending several million digitally signed documents per month.

On 1 March 2023 there was an **update of the prices** of postal services provided in the scope of the universal service⁵ basket of letter mail, editorial mail and parcels services, defined in accordance with the Pricing Criteria set out in the Universal Postal Service Price Convention for the 2023-2025 period, which was entered into by the National Authority for Communications (ANACOM), the Consumer Directorate-General and CTT. For 2023 this update corresponds to a 6.24% average annual price variation, which also reflects the effect of the update of the special prices for bulk mail.

The average price change of the universal postal service⁵ in 1Q23 was +6.55%.

Mail volumes

In 1Q23, **addressed mail volumes** declined by 5.2% y.o.y. Excluding the one-off volumes of international outbound mail in February 2022, due to the rerun of the legislative elections in the European constituency, this decrease would have been 4.4% y.o.y

Mail volumes

	Million items			
	1Q22	1Q23	Δ	Δ%
Transactional mail	104.5	100.9	(3.6)	(3.5%)
Advertising mail	8.4	6.0	(2.4)	(28.7%)
Editorial mail	6.9	6.7	(0.2)	(2.6%)
Addressed mail	119.8	113.6	(6.2)	(5.2%)
Unaddressed advertising mail	109.9	76.4	(33.5)	(30.5%)

In 1Q23, **transactional mail** volumes decreased by 3.5% y.o.y.

Ordinary mail slightly decreased (-4.4% y.o.y) as a consequence of the intrinsic trend in the postal sector primarily due to the digital transformation of communications.

International outbound mail decreased by 25.2% y.o.y. (-7.5% y.o.y excluding the volumes from the legislative elections).

Despite the decline in **international inbound mail** (-7.8% y.o.y), there was an improvement compared to 4Q22 (+9.3%), reversing the downward trend that began in the 2nd half of 2021 due to the fact that, on 1 July 2021, the abolition of the VAT exemption on postal items below €22 (*de minimis*) came into force, leading to the need for customs clearance of all items of extra-EU origin. This resulted in an increase in customs transit times due to a complex and one-by-one process, which, ultimately, led to the migration of this type of flows to express networks.

In the opposite direction, **registered mail** volumes grew (+17.5% y.o.y) in 1Q23, driven by the dynamics of contractual customers, especially the government and banking & insurance sectors.

Addressed advertising mail volumes decreased by 28.7% y.o.y. and **unaddressed advertising mail** decreased by 30.5% y.o.y. The increase in the price of paper has led some of the customers to opt for a more digital strategy. Also the fact that there were some campaigns in 1Q22 which were not replicated this year adversely affected performance in this quarter.

During this period the following CTT Ads offers were disseminated: “Creativity”, “Database” (to leverage the Direct Mail product line), “Create Campaigns” and “Digital Media”. New partnerships with various entities were launched to expand and complement the digital advertising offer, thus seeking to anticipate the customers' needs.

⁵ Includes letter mail, editorial mail and parcels of the universal postal service, excluding international inbound mail.

Express & Parcels

Express & Parcels revenues amounted to €64.7m in 1Q23 (+€3.3m; +5.4% y.o.y), thus achieving a quarterly growth in absolute terms similar to the annual growth of 2022 compared to 2021.

Revenues in Portugal recorded €33.9m in 1Q23 (+€2.9m; +9.3% y.o.y) and volumes totalled 8.6 million items (+14.3% y.o.y).

CEP revenues amounted to €30.6m in 1Q23 (+€3.0m; +10.9% y.o.y), with a 12.9% y.o.y. increase of volumes per working day and high quality of service levels. This growth was driven essentially by e-commerce (B2C) customers, particularly large global marketplaces and national and international e-sellers.

The **banking documents delivery** product line recorded revenues of €1.1m in 1Q23 (-0.5% y.o.y) in a context of continued reduction of the capillarity of banking networks, as well as of lower collection/delivery frequency.

Revenues of the **cargo** product line amounted to €1.0m in 1Q23 (-25.9% y.o.y), a reduction related to the change in the operating strategy, which aimed at repositioning this product line within positive margin levels (the contribution margin⁶ in 1Q23 was 13.5%). This implied the exit of some customers as well as the withdrawal from some activity sectors without operating synergies.

The **logistics** product line, which is a pillar of the development of the vertical integration strategy with CEP, recorded revenues of €0.9m in 1Q23 (+27.9% y.o.y). This strong growth was underpinned by the recovery of a major customer and a three-month logistics operation won in response to a public tender.

CTT continued to roll out its 24-hour locker (**Locky**) strategy allowing clients to pick up their parcels with maximum convenience, 24 hours a day, every day of the week (24/7) in most lockers. As at the end of March 2023, CTT's Locky network comprised 606 units in various locations around the country, namely in hospitals, intermodal transport platforms, shopping centres, university campuses, physical retail networks, parking lots, gas stations or, in the case of private lockers, in condominiums and in office/business areas.

Revenues in Spain stood at €29.7m in 1Q23 (+0.6% y.o.y), with 9.3 million items and an average unit revenue growth of 9.5% y.o.y.

CTT Express began its new customer clearance service with the opening of a new unit in San Fernando de Henares, which meets the needs of extra-EU clients. It is thus positioned as an operator that adds value at any stage of the supply chain, both for customers and addressees.

Revenues in Mozambique in 1Q23 amounted to €1.1m (+29.9% y.o.y). This growth was driven by a partnership with a freight forwarder in Africa which started at the end of 1Q22.

⁶ Revenues minus direct operating costs (excludes overheads, essentially buildings and fleet).

Banco CTT

Banco CTT **revenues** reached €34.1m in 1Q23 (+€6.0m; +21.4% y.o.y).

Revenue growth was due to the positive performance of **net interest income**, which totalled €22.0m in 1Q23 (+€5.6m; +34.2% y.o.y). Interest received increased by €9.4m compared to 1Q22, and interest paid increased by €3.9m compared to 1Q22 due to the increase in interest rates on customer deposits and securitisations of auto loans.

Interest from **consumer credit** amounted to €12.7m in 1Q23 (+€2.1m; +19.4% y.o.y) and **auto loans** reached a loan portfolio net of impairments of €784.0m (+3.1% vs. December 2022). Auto loans production stood at €66.8m in 1Q23 (+10.8% y.o.y).

The **cartão Universo** consumer credit portfolio generated revenues of €5.8m in 1Q23 (+€1.2m; +26.9% y.o.y), with a balance sheet volume, net of impairments, of €321.8m in 1Q23 (-€32.0m; -9.0% vs. December 2022). The end of the partnership by 31 December 2023 will entail a progressive reduction of the portfolio which, given the current economic environment, particularly regarding the associated interest rates and cost of risk, will allow Banco CTT to gain strategic options in the management of its portfolio.

Interest from **mortgage loans** stood at €3.8m in 1Q23 (+€2.9m; +315.8% y.o.y), considering that in 1Q23 Euribor rates are higher than in 1Q22, when they were negative. Base interest rates for mortgage loans reflected strong growth as a result of the rise in key interest rates defined by the European Central Bank (ECB), due to the increase in inflation in the Euro area. The mortgage loan portfolio net of impairments totalled €671.8m in 1Q23 (+2.0% vs. December 2022). Mortgage loan production amounted to €49.2m in 1Q23 (+€10.3m; +26.4% y.o.y).

Also worthy of note is the interest received on **other credit** relating to the application of surplus liquidity at Banco de Portugal, which increased by €2.4m in 1Q23 compared with 1Q22.

Commissions received in this business unit reached €11.2m in 1Q23, (+€0.7m; +6.2% y.o.y). Noteworthy are the following positive contributions in 1Q23: (i) commissions from **accounts and cards**, which amounted to €3.0m (+€0.3m; +12.2% y.o.y), (ii) **payments**, which totalled €4.6m (+€0.3m; +7.9% y.o.y); and (iii) **insurance** amounting to €0.9m (+€0.1m; +15.9% y.o.y).

In terms of less favourable performance, as a result of the current economic context, there was a retraction: (i) in **savings products** (off-balance sheet) with a reduction of €11.4m, -1.3% compared to December 2022 in the net off-balance volume, with the respective commissions received amounting to €1.2m (+€0.0m; +3.0% y.o.y) which corresponds to a net off-balance sheet volume of €880.4m; and (ii) in commissions received on **consumer credit** (off-balance sheet) with €0.6m (-€0.1m; -17.7% y.o.y).

Customer deposits (Banco CTT consolidation) stood at €2,241.4m in March 2023 (-1.7% vs. December 2022), with a 25.1% increase in fixed-term deposits and a 12.1% reduction in current account deposits compared to December 2022. The **number of accounts** was 612k (10k more than in December 2022).

The **loan-to-deposit ratio** reached 79.5% as at the end of March 2023.

The **cost of risk** (consolidated and accumulated as at March 2023) stood at 1.4%, down by 0.1 p.p. compared to December 2022, due to the decrease in the customer loan portfolio, especially consumer credit (Universo credit card).

Financial Services & Retail

Financial Services & Retail **revenues** amounted to €28.7m in 1Q23 (+€16.8m; +141.6% y.o.y). There was a positive evolution in revenues in 1Q23, as a result of the higher attractiveness of public debt certificates, especially Savings Certificates, against an interest rate backdrop more in favour of this savings product.

Financial services (excluding other revenues) obtained revenues of €25.0m (+€17.2m; +223.2% y.o.y).

Public debt certificates (Savings Certificates and Treasury Certificates Savings Growth) posted revenues of €23.2m in 1Q23 (+€17.5m; +306.7% y.o.y).

Subscriptions of these certificates amounted to €7,543.6m in 1Q23, an average of €117.9m/day (€18.5m/day in 1Q22), which compares to €8,138.0m throughout 2022. This is the outcome of a new interest rate conjuncture that places public debt as a more interesting investment alternative.

These positive results in public debt certificates made it possible to absorb the less favourable performance of **money orders**, which recorded revenues of €1.1m in 1Q23 (-€0.3m; -20.9% y.o.y). The additional issues of social benefits in 1Q22, created under the current macroeconomic framework, did not occur in 1Q23, which was also burdened by the structural decline resulting from the substitution of this means of payment.

It should be noted that CTT reinforced the commercial dynamism of **non-banking financial products** in the beginning of 2Q23, in the area of non-life insurance, including auto, health, personal accidents, multi-risk, etc., by entering into a distribution agreement with Generali.

Retail products and services (excluding other revenues) reached €3.4m in revenues in 1Q23 (-€0.7m; -17.1% y.o.y).

This reduction is in line with the strategy CTT has defined for the retail network of discontinuing some products, including scratch cards, and repositioning its retail network as a service platform, including: (i) the offer of self-services including the distribution of mail and express and parcels products and services; (ii) the distribution of public debt; (iii) the marketing of insurance products; and (iv) the provision of convenience services for citizens. Aimed at improving customer service and experience, a strategy of digital channels and self-services is also being developed, focusing on the search for complementarity between physical and digital and between in-store and self-service.

Operating Costs

Operating costs totalled €216.8m in 1Q23 (-€8.5m; -3.8% y.o.y).

Operating costs	225.4	216.8	(8.5)	(3.8%)

Staff costs increased by €5.9m (+6.5% y.o.y) in 1Q23, mostly as a result of the salary increase and the increase in the national minimum wage (+€4.2m), which constituted an additional effort by the company due to the current economic situation. Additionally, the growth in the contact centre activity and document management of the Mail & Other corporate solutions business line, as well as in the Express & Parcels activity, also contributed to this evolution in costs.

External supplies & services costs decreased by €0.5m (-0.6% y.o.y), essentially due to the impact of elections in 1Q22 (-€3.3m). This effect was partially offset by the growth in direct costs of services associated to growing businesses, especially in Express & Parcels (+€2.7m).

Impairments and provisions increased by €2.3m in 1Q23 (+39.4% y.o.y), as a result of the growth in the auto loans and the Universo credit card portfolios.

Other costs decreased by €19.4m (-65.1% y.o.y), mainly due to the business solutions laptop sale project that took place in 1Q22 (-€20.7m y.o.y).

Depreciation & amortisation decreased by €0.2m (-1.6% y.o.y) in 1Q23, positively impacted by the revision of the useful life of some assets (-€0.9m). This effect was partly offset by investment in IT systems (+€0.2m), furniture (+€0.1m), and to new building and vehicle lease contracts which impacted amortisation (+€0.3m), due to the IFRS 16 accounting standard.

Specific items amounted to €0.7m in 1Q23, due to: (i) restructuring costs, namely suspension agreements of employment contracts (+€0.3m); (ii) strategic projects (+€0.7m); (iii) the change of head office building (-€0.2m); and (iv) gross gains from the appreciation of contracted derivatives (-€0.1m).

Staff

On 31 March 2023, the number of CTT **employees** (permanent employees and fixed-term employees) was 12,918, up 349 compared to 31 March 2022 (+2.8% y.o.y).

There was an increase in the number of employees in all business units, mainly in the Express & Parcels business unit (+278) and Banco CTT (+46). The Mail & Other business unit also presented a slight increase, as a result of the increment in the activity of the contact centre and the document management of the business solutions area, which was partially compensated by the prosecution of the Human Resources optimisation programme underway mainly in the central structure.

Together, the areas of operations and distribution within the mail network (4,996 employees, of whom 4,006 are delivery postmen and women) and the retail network (2,234 employees) represented circa 63.5% of CTT's permanent staff.

Recurring EBIT

Recurring EBIT stood at €25.7m in 1Q23 (+€19.0m; +285.3% y.o.y), with a margin of 10.6% (2.8% in 1Q22). All business units, except Express & Parcels, posted recurring EBIT growth: Financial Services & Retail by +€12.8m, +245.6% y.o.y; Banco CTT by +€0.9m, +25.3% y.o.y; as well as Mail & Other by +€6.0m, +181.3% y.o.y. In Express & Parcels (-€0.7m; -50.1% y.o.y), the decline was due to the increased costs associated with the expansion of sorting centres and the increase in fuel prices, and in Portugal there was also a decrease in the average revenue per item due to the change of the product mix (greater flows of smaller items).

€ million

Financial costs and losses incurred amounted to €3.5m, mainly incorporating financial costs related to post-employment and long-term employee benefits of €1.8m, the most significant increase of which is due to the increase in the discount rate in the 2022 valuation, interest expense associated to finance leases liabilities linked to the implementation of IFRS 16 for an amount of €0.8m and interest expense on bank loans for an amount of €0.7m.

In 1Q23, CTT obtained a **consolidated net profit** attributable to equity holders of €16.1m, which is €10.7m above 1Q22. The evolution of consolidated net income was positively impacted by the growth of recurring EBIT (+€19.0m) and negatively affected by (i) the worsening of net financial results (-€1.0m), (ii) the unfavourable evolution of the corporate income tax for the period (+€3.9m), (iii) specific items, as in 1Q22 CTT registered a gain of €2.7m as compared to a loss of €0.7m registered in 2023, as mentioned above.

Investment

Capex stood at €5.6m in 1Q23 (-€0.4m; -6.2% y.o.y).

This evolution is justified above all by the investment made in sorting centres as of late. CTT maintains its focus on improving IT systems, especially in the area of Express & Parcels where investment in IT systems to support the business was reinforced.

Cash flow

In 1Q23, the Company generated an operating **cash flow** of €44.2m (+€33.8m; +326.4% y.o.y). The growth of operating cash flow is primarily explained by (i) the favourable performance in terms of generated EBITDA (+€18.8m to €40.8m), as well as by (ii) the very positive evolution of working capital (+€15.4m). The €2.7m reduction in the non-cash items at the EBITDA level was offset by higher cash costs related with specific items (a deterioration of €3.4m). On the other hand, the capex in 1Q23 was broadly stable as compared to 1Q22.

In terms of working capital, the evolution observed results from a positive performance of EBITDA-related items, reflecting a more efficient management of accounts receivable which positively impacted the average collection period, as well as investment-related items which performed positively in terms of the average payment deadlines.

The key aspects of the comparison between the **balance sheet** as at 31.03.2023 and that as at 31.12.2022 are as follows:

- **Assets** grew by €88.3m, largely due to the growth in cash and cash equivalents following the significant increase of amounts received as advances for the payment of money orders (+€132.5m), partly attenuated by the decrease in other banking financial assets (-€48.3m) as a result of the bank applications made by Banco CTT in Banco de Portugal.
- **Equity** increased by €16.1m following the net profit attributable to shareholders of the CTT Group in 1Q23 in the amount of €16.1m.

- **Liabilities** increased by €72.2m, mostly due to the increase in accounts payable (+€93.1m) largely due to the amounts received as advances for the payments of money orders, and the increase of debt following the contracted commercial paper programmes (+€27.3m). In the opposite sense, there was a decrease in banking clients' deposits and other loans (-€35.1m) and other banking financial liabilities (-€14.2m).

The CTT Group consolidated balance sheet excluding Banco CTT from the full consolidation perimeter and accounting it as a financial investment measured by the equity method would be as follows:

- **Adjusted cash** increased by €74.4m, as the positive performance of the operating cash flow (+€44.2m) offset the payment of employee benefits (-€4.4m) and tax payments (-€0.1m), as well as the contracting of commercial paper programmes (+€34.7m).
- **Short-term & long-term debt** increased by €27.3m essentially due to the combined effect of the decrease in lease liabilities (-€7.7m) and the increase in bank loans (+€35.0m) as a result of the above-mentioned commercial paper programmes.

2. Other highlights

Regulatory issues

As announced to the market on 26 January 2023, the **prices** of the letter mail, editorial mail and parcels services covered by the Universal Postal Service Price Convention, were updated effective 1 March 2023. This update corresponded to an average annual price variation of 6.58%. The overall average annual price variation, also reflecting the effect of the update of special prices for bulk mail, is 6.24%.

Main ESG milestones achieved

At the beginning of 2023, CTT committed to pursuing the objectives of the Faster, Better and Greener transformation programme, including its environmental, social and governance dimensions, as defined in the sustainability programme for the 2025-2050 period.

In the **environmental dimension**, the evolution of the electrification of the "green" fleet for the last mile was 0.6 percentage points, from 15.3% of the total number of vehicles at the end of 2022 to 15.9% on 31 March. In the whole CTT fleet, the number of "green" vehicles is already 665, mostly electric and in activity for last-mile distribution. It should be recalled that CTT's commitment is to reach a net-zero carbon balance by 2030, with 50% "green" vehicles in the last mile by 2025 and 100% by 2030. For this purpose, CTT reinforced its investment in the last-mile fleet with the goal of doubling the electrification of this segment of its own fleet as early as 2023.

CTT reinforced its efforts to incorporate recycled materials in its offer, in the first quarter of 2023, and extended its scope to philatelic products and Banco CTT. If we consider this extension, on 31 March 2023, 49.4% of CTT's offer in Portugal already incorporated recycled and reused materials. Considering only the mail, express and parcels offer in Portugal, there was a positive trend already in the first quarter, with an increase in the incorporation of recycled materials to 59.2%, compared to 54.9% at the end of 2022. CTT's commitment is to incorporate recycled and reused material in 80% of its offer by 2025 and reach 100% by 2030.

On the **internal social front**, CTT has the ambition to ensure full gender parity in top and middle management by 2025. At the end of the 1st quarter of 2023, women (the under-represented gender) represented 39.5% of the leadership functions in the top and middle management of CTT and its subsidiaries (in line with the trend seen at the end of 2022). Additionally, the implementation of the Fast Track CTT leadership programme is underway, aiming to strengthen the role of CTT's leaders, aligning the mission, vision and respective values. This programme relies on the active participation of its leaders and aims to better prepare them to respond to current and future challenges.

In relation to **external social impact**, the commitment to ensure that 1% of recurring EBIT is invested in social impact programmes by 2025 was practically achieved (the ascertained value was 0.97%) at the end of 2022. In the first three months of 2023, donations to social institutions were an additional 157 thousand euros, reaching 0.61% of the recurring EBIT. This value will be adjusted throughout the year, when some of the already planned donations, of more relevant values, will take place.

CTT also reinforced the invitation to participate in social and volunteer programmes for workers and their families, who responded positively to the call. To be highlighted are the EPIS Mentoring and Tutoring programme, which kicked off with a face-to-face meeting at Seixal Secondary School on 6 January, the blood collection initiative and the planting in Serra da Estrela of trees donated by CTT clients who joined the 9th edition of the participative citizenship initiative "A Tree for the Forest". In total, 100 volunteer workers dedicated a total of 443 hours (more than 4 hours per worker) to these initiatives until 31 March 2023.

Finally, it is also worth highlighting that CTT was elected for the 16th time as Trusted Brand by the Portuguese, through a survey carried out by the Reader's Digest Selections, leading in the Mail and Logistics Services category.

Outlook for 2023

Following the robust 1Q23 performance, particularly in the Financial Services and Banco CTT business units, CTT revised upward the guidance for 2023. Thus, the Company expects to achieve a recurring EBIT of at least €80m (compared to the previously communicated 10% growth to a €70m level).

Risk outlook is maintained, as follows: (1) high geopolitical uncertainty; and (2) macro risks will continue to be relevant and persistent, namely inflation, cost of energy and raw materials.

As mentioned above, revenue and recurring EBIT guidance reflects continued growth and transformation, notwithstanding a challenging environment.

3. Subsequent events

The Annual General Meeting held on 20 April 2023 approved the appropriation of results relative to the 2022 financial year as proposed by the Board of Directors, including the payment of a €0.125 gross dividend per share.

The General Meeting also passed a resolution on a share capital reduction of €717,500.00 for the purpose of releasing excess capital, by means of the cancellation of 1,435,000 shares representing 0.997% of the share capital, already acquired in connection with the share buyback programme, as well as on the related reserves.

On 21 April 2023, the CTT share capital reduction in the amount mentioned above was registered before the Commercial Registry Office, whereby 1,435,000 shares held by the Company were cancelled. CTT's share capital thus became 71,957,500.00 Euros, represented by 143,915,000 shares with the nominal value of fifty cents per share. Paragraphs 1 and 2 of Article 4 of the Articles of Association were amended accordingly.

1. Introduction

CTT – Correios de Portugal, S.A. (“CTT” or “Company”), with head office at Avenida dos Combatentes, 43, 14th floor, 1643-001 in Lisbon, had its origin in the “Administração Geral dos Correios Telégrafos e Telefones” government department and its legal form is the result of successive re-organisations carried out by the Portuguese state business sector in the communications area.

Decree-Law no. 49 368, of 10 November 1969, founded the state-owned company CTT - Correios e Telecomunicações de Portugal, E. P., which started operating on 1 January 1970. By Decree-Law no. 87/92, of 14 May, CTT – Correios e Telecomunicações de Portugal, E. P., was transformed into a legal entity governed by private law, with the status of a state-owned public limited company. Finally, with the foundation of the former Telecom Portugal, S.A. by spin-off from Correios e Telecomunicações de Portugal, S.A. under Decree-Law no. 277/92, of 15 December, the Company's name was changed to the current CTT – Correios de Portugal, S.A.

On 31 January 2013, the Portuguese State through the Order 2468/12 – SETF, of 28 December, determined the transfer of the investment owned by the Portuguese State in CTT to Parpública – Participações Públicas, SGPS, S.A.

At the General Meeting held on 30 October 2013, the registered capital of CTT was reduced to 75,000,000 Euros, being from that date onward represented by 150,000,000 shares, as a result of a stock split which was accomplished through the reduction of the nominal value from 4.99 Euros to 0.50 Euros.

During the financial year ended 31 December 2013, CTT's capital was opened to the private sector. Supported by Decree-Law no. 129/2013, of 6 September, and the Resolution of the Council of Ministers (“RCM”) no. 62-A/2013, of 10 October, the RCM no. 62-B/2013, of 10 October, and RCM no. 72-B/2013, of 14 November, the first phase of privatisation of the capital of CTT took place on 5 December 2013. From this date onward, 63.64% of the shares of CTT (95.5 million shares) were owned by the private sector, of which 14% (21 million shares) were sold in a Public Offering and 49.64% (74.5 million shares) by Institutional Direct Selling. On 31 December 2013 the Portuguese State, through Parpública - Participações Públicas, SGPS, S.A. held 36.36% of the shares of CTT, 30.00% by holding and 6.36% by allocation.

On 5 September 2014, the second phase of the privatisation of CTT took place. The shares held by Parpública - Participações Públicas, SGPS, S.A., which on that date represented 31.503% of CTT's capital, were subject to a private offering of shares (“Equity Offering”) via an accelerated book-building process. The Equity Offering was addressed exclusively to institutional investors.

At the meeting of the Company's Board of Directors held on 16 March 2022, it was unanimously decided to approve the implementation of a Buy-back programme for the Company's own shares, including the related terms and conditions, with the sole purpose of reducing the Company's share capital through the cancellation of shares acquired under the aforementioned programme, subject to prior approval by the General Meeting.

At the General Meeting held on 21 April 2022, a resolution was approved regarding the maximum number of shares to be acquired under the Buy-back Programme.

Subsequently, on 7 November 2022, the Company's share capital reduction in the amount of 2,325,000 euros, through the cancellation of 4,650,000 shares representing 3.1% of the share capital, was registered in the Commercial Register Office, with the Company's share capital to be composed of 145,350,000 shares with the nominal value of 0.50 Euros each.

The financial statements attached herewith are expressed in Euros, as this is the main currency of the Group's operations.

The shares of CTT are listed on Euronext Lisbon.

These financial statements were approved by the Board of Directors and authorised for issue on 4 May 2023.

2. Significant accounting policies

The accounting policies adopted, including financial risk management policies, are consistent with those followed in the preparation of the consolidated financial statements for the year ended 31 December 2022, except for the new standards and amendments effective from 1 January 2023.

2.1 New standards or amendments adopted by the Group

The standards and amendments recently issued, already effective and adopted by the **Group** in the preparation of these financial statements, are as follows:

- **IFRS 17 - Insurance Contracts** - IFRS 17 applies to all insurance contracts (i.e., life, non-life, direct insurance and reinsurance), regardless of the type of entities that issue them, as well as some guarantees and some financial instruments with discretionary participation features. In general terms, IFRS 17 provides an accounting model for insurance contracts that is more useful and more consistent for issuers. In contrast to the requirements of IFRS 4, which are based on previously adopted local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.
- **Amendments to IFRS 17 – Insurance contracts – Initial application of IFRS 17 and IFRS 9 – Comparative information** - This amendment to IFRS 17 refers to the presentation of comparative information on financial assets in the initial application of IFRS 17.

The amendment adds a transition option that allows an entity to apply an “overlay” in the classification of a financial asset in the comparative period(s) presented in the initial application of IFRS 17. The “overlay” allows all financial assets, including those held in connection with non-contract activities within the scope of IFRS 17, to be classified on an instrument-by-instrument basis in the comparative period(s) in line with how the entity expects these assets to be classified in the initial application of IFRS 9.

- **Amendments to IAS 1 – Disclosure of Accounting Policies** - These amendments are intended to assist the entity in the disclosure of 'material' accounting policies, previously designated as 'significant' policies. However, due to the non-existence of this concept in the IFRS standards, it was decided to substitute the concept “materiality”, a concept already known by the users of the financial statements. When assessing the materiality of accounting policies, the entity must consider not only the size of transactions but also other events or conditions and their nature.
- **Amendments to IAS 8 – Definition of accounting estimates** - The amendment clarifies the distinction between changes in accounting estimates, changes in accounting policy and the correction of errors. Additionally, it clarifies how an entity uses measurement techniques and inputs to develop accounting estimates.

- **Amendments to IAS 12** – Deferred tax relating to assets and liabilities arising from a single transaction.

The amendment clarifies that payments that settle a liability are tax deductible, however it is a matter of professional judgment whether such deductions are attributable to the liability that is recognised in the financial statements or to the related asset. This is important in determining whether there are temporary differences in the initial recognition of the asset or liability.

Thus, the initial recognition exception is not applicable to transactions that gave rise to equal taxable and deductible temporary differences. It is only applicable if the recognition of an active lease and a passive lease gives rise to taxable and deductible temporary differences that are not equal.

The Group did not register significant changes with the adoption of these standards and interpretations.

2.2 Basis of preparation

The interim condensed consolidated financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards ("IAS / IFRS") as adopted by the European Union as at 1 January 2023, and in accordance with IAS 34 - Interim Financial Reporting.

The consolidated financial statements were prepared under the assumption of going concern and are prepared under the historical cost convention, except for the financial assets and liabilities accounted at fair value.

3. Segment reporting

In accordance with IFRS 8, the Group discloses the segment financial reporting.

The Board of Directors regularly reviews segmental reports, using them to assess and communicate each segment performance, as well as to decide on how to allocate resources.

The business of CTT is organised in the following segments:

- **Mail** – CTT Contacto, S.A., CTT Soluções Empresariais, S.A., New Spring Services S.A., CTT IMO - Sociedade Imobiliária, S.A. MedSpring, S.A., CTT IMO Yield, S.A., CTT Services, S.A and CTT, S.A. excluding:
 - Business related to postal financial services and retail products - Financial Services & Retail;
 - The business of payments related with collection of invoices and fines, Western Union transfers, integrated solutions and tolls – Bank.
- **Express & Parcels** – includes CTT Expresso S.A., CORRE S.A., Fundo Inovação Techtree and Open Lockers, S.A.;
- **Financial Services & Retail** - Postal Financial Services and the sale of products and services in the retail network of CTT, S.A.;
- **Bank** – Banco CTT S.A., S.A., Payshop S.A., 321 Crédito S.A. and CTT's payment business (mentioned above).

The business segregation by segment is based on management information produced internally and presented to the "chief operating decision maker".

The segments cover the three CTT business areas, as follows:

- Postal Market, covered by the Mail segment;
- Express and Parcels Markets, covered by the Express & Parcels segment; and
- Financial Market, covered by the Financial Services and Bank segments.

The amounts reported in each business segment result from the aggregation of the subsidiaries and business units defined in each segment perimeter and the elimination of transactions between companies of the same segment.

The statement of financial position of each subsidiary and business unit is determined based on the amounts booked directly in the companies that compose the segment, including the elimination of balances between companies of the same segment, and excluding the allocation in the segments of the adjustments between segments.

The income statement for each business segment is based on the amounts booked directly in the companies' financial statements and related business units, adjusted by the elimination of transactions between companies of the same segment.

However, as CTT, S.A. has assets in more than one segment it was necessary to split its income and costs by the several operating segments. The Internal Services Rendered refer to services provided across the different CTT, S.A. business areas, and the income is calculated according to standard activities valued through internally set transfer prices. The Mail segment provides internal services essentially related to the retail network (included in the Mail segment). Additionally, the Financial Services Segment uses the Retail network to sell its products. The use of the Retail network by other segments, as Express & Parcels and CTT Bank is, equally, presented in the line "Internal Services Rendered".

Initially, CTT, S.A. operating costs are allocated to the different segments by charging the internal transactions for the services mentioned above. After this initial allocation, costs relating to corporate and support areas (CTT Central Structure) are allocated by nature to the Mail segment and others.

The consolidated income statement by nature and segment of the three months of 2022 and 2023 are as follows:

The detail of the underlying reasons to the non-allocation of the following assets to any segment, is as follows:

- “Intangible assets” (2,714,941 Euros): the unallocated amount is related to part of the intangible assets in progress, which are allocated to the underlying segment in the moment they become firm assets;
- “Tangible fixed assets” (2,036,481 Euros): This amount corresponds to a part of the tangible fixed assets in progress and advances payments to suppliers, which are allocated to the related segment at the time of the transfer to firm assets;
- “Investment properties” (6,131,870 Euros): These assets are not allocated to the operating activity, which is why they are not allocated to any segment;
- “Deferred tax assets” (67,202,432 Euros): These assets are mainly comprised of deferred tax assets associated with employee benefits, being those related to the CTT, S.A. Health Plan the most relevant amount, as detailed in note 26 - Income tax for the period. CTT, S.A. is allocated to different segments, as already mentioned, the allocation of these assets to the different segments does not seem possible to be carried out reliably;
- “Accounts receivables” (147,265,207 Euros): This amount cannot be allocated, due to the existence of multi-products customers, whose receivable amounts correspond to more than one segment;
- “Other assets” (20,243,752 Euros): This amount is mainly related to investments in associated companies and investments in joint ventures, that are not allocated to the operating activity, which is why they are not allocated to any segment, as well as some captions of prepayments and other current and non-current assets, mostly related to CTT S.A., which are allocated to different segments and this allocation is not possible to be carried out reliably;
- “Cash and cash equivalents (458,600,807 Euros): the unallocated amount is related, essentially, to the cash and cash equivalents of CTT S.A., as this company concentrates the business segments’ Mail, Financial Services & Retail and Bank, and it is not possible to split the amounts of cash and bank deposits by each CTT’s businesses.

Debt by segment is detailed as follows:

The depreciation recorded in the Group amounting to 12,407,673 Euros (11,656,888 Euros on 31 March 2022), is booked under the caption Depreciation/amortisation and impairment of investments, net.

As at 31 March 2023, Land and natural resources and Buildings and other constructions include 450,417 Euros (458,441 Euros as at 31 December 2022), related to land and property in co-ownership with the company MEO – Serviços de Comunicações e Multimédia, S.A..

According to the concession contract in force (Note 1), at the end of the concession, the assets included in the public and private domain of the State revert automatically, at no cost, to the conceding entity. As the postal network belongs exclusively to CTT, not being a public domain asset, only the assets that belong to the State revert to it, and as such, at the end of the concession CTT will continue to own its assets. The Board of Directors, supported by CTT's accounting records and the statement of Directorate General of Treasury and Finance ("Direção Geral do Tesouro e Finanças"), the entity responsible for the Information System of Public Buildings ("Sistema de Informação de Imóveis do Estado" – SIIE) concludes that CTT's assets do not include any public or private domain assets of the Portuguese State.

As under the concession contract, the grantor does not control any significant residual interest in CTT's postal network and CTT being free to dispose of, replace or encumber the assets that integrate the postal network, IFRIC 12 - Service Concession Agreements is not applicable to the universal postal service concession contract.

In the first quarter of 2023, the Group reviewed the useful lives of some classes of tangible fixed assets, of which the following stand out: computer equipment from the office equipment class, essentially extending them from 3 to 6 years; ii) sorting machines, from basic equipment class, essentially extending them from 8 to 15 years; and iii) improvement works on third-party buildings in the Buildings and other constructions class, in which case their useful life was evaluated together with the underlying lease term. The review of the useful life was carried out based on the analysis of the historical average effective use of the assets allocated to the underlying class taking into account their current estimated economic life, as well as the analysis of the useful lives practised for similar assets by the Peer Groups of CTT Group. Changes in useful lives are accounted for prospectively. The impact of this change results in a reduction in depreciation in the three-month period ended 31 March 2023 of 465 thousand euros and an estimated reduction for the year 2023 of 1,830 thousand euros.

During the three-months period ended 31 March 2023, the most significant movements in Tangible Fixed Assets were the following:

Buildings and other constructions:

The movements associated with acquisitions and transfers concern to capitalisation works in own and third-party buildings in several CTT and CTT Expresso facilities.

Basic equipment:

The amount relating to acquisitions mainly concerns the acquisition of various postal equipment for the amount of 172 thousand Euros by CTT Expresso and the acquisition of lockers for the amount of 295 thousand Euros by Open Lockers.

Office equipment:

The depreciation recorded, in the amount of 7,971,548 Euros (6,972,133 Euros on 31 March 2022), is booked under the caption "Depreciation/amortisation and impairment of investments, net."

As at 31 December 2022, the caption "Transfers and write-offs" essentially books the adjustment of the right of use associated with the lease agreement of the former CTT headquarters building - Edificio Báltico, following the remeasurement of the underlying liability, carried out within the scope of the decision to change headquarters premises. During 2022, an amendment to the lease in force was identified, embodied in a negotiation process in the pre-completion phase, which i) not being a separate lease; and ii) reducing the lease term, resulted in the adjustment of the right of use corresponding to a gross amount of 52,413 thousand euros and accumulated amortisations in the amount of 40,990 thousand euros, which together with the adjustment of the corresponding lease liability in the amount of 14,847 thousand euros, originated a gain of 3,424 thousand euros recognised under the caption "Gains/losses on sale/remasurement of assets". Additionally, on 31 December 2022, a new amendment to the aforementioned lease agreement was recorded due to a breach of agreed pre-contractual conditions which, once again, i) not being a separate lease; and ii) increasing the lease term, implied the remeasurement and recognition of the liability for the remaining term of the lease contract, in the amount of 14,231 thousand Euros, taking into account the discount rate in force on the date of this new amendment, as well as the corresponding right-of-use asset recognised under "Remeasurements" caption, in the same amount. Also with reference to 31 December 2022, an impairment loss was recognised for the aforementioned right of use, in the amount of 3,636 thousand Euros, corresponding to the period in which there is an expectation that the right of use do not generate economic benefits for the Group because the building is vacant. Additionally, an amount of 4,282 thousand Euros was recognised under the caption "New Contracts", relating to the lease agreement for the new CTT headquarters building – Green Park. As at 31 March 2023, the amount recorded under "reversals" caption corresponds to the contract period that has already elapsed, the impairment being reversed in proportion to the depreciation of the right of use.

The information on the liabilities associated with these leases as well as the interest expenses can be found disclosed on Debt (Note 18) and Interest expenses and income (Note 25), respectively.

For the three-months period ended 31 March 2023, no interest on loans was capitalised, as no loans were directly identified attributable to the acquisition or construction of an asset that requires a substantial period of time (greater than one year) to reach its status of use.

According to the analysis of impairment triggers as at 31 March 2023, no events or circumstances were identified that indicate that the amount for which the Group's tangible fixed assets are recorded may not be recovered.

Other information

The real estate assets of CTT are comprised of two portfolios with different characteristics:

1. Yield Portfolio:

The management of this Yield Portfolio aims at the exploitation, internally and with third parties, of properties that are part of CTT's current and future network and which currently do not have relevant real estate development opportunities.

2. Development Portfolio

Regarding to the Development Portfolio, this comprises, among others, properties that may become, in the near future, non-essential for CTT's logistics networks and which have a potential for real estate development and promotion in specific projects.

Sensitivity Analysis

Given the high uncertainty of macroeconomic projections and considering that deviations from the presented scenarios may have an impact on the value of estimated expected losses, sensitivity analyzes were carried out on the distribution of the portfolio by stage and the respective impact on impairment.

The Group considers that the parameters assumed to be more sensitive or susceptible to changes in the economic cycle are the Probability of Default (PD – Probability of Default) for most portfolios and the Loss Given Default (LGD – Loss Given Default) for the case of the credit card.

In this context, a sensitivity analysis was carried out to determine what would be the impairment of the global portfolio if those parameters suffered a relative deterioration of 10%, conclude that the increase in impairment would be 2,695 thousand euros, corresponding to about 4%.

11. Prepayments

As at 31 December 2022 and 31 March 2023, the Prepayments included in current assets and current and non-current liabilities showed the following composition:

	31.12.2022	31.03.2023

Rents payable	861,806	650,158
Meal allowances	1,360,349	1,349,950
Other	6,789,720	10,325,704
	9,011,875	12,325,811
Prepaid Liabilities		
Non-current		
Investment subsidy	260,886	258,086

	3,678,140	10,812,581
	3,939,027	11,070,667

The change in the caption Other assets prepayments essentially results from the renewal of software license contracts and insurance contracts.

The variation in the caption “Other current prepaid liabilities” is mainly explained by the deferral of income for the subsequent period related to the commission earned on placing public debt.

The caption “Contractual liabilities” results from the application of IFRS 15 - Revenue from Contracts with Customers and stands for the amount already invoiced, but not yet recognised as revenue because the performance obligations have not yet been met as recommended by the standard.

The “Contractual liabilities” essentially refer to amounts related to stamps and prepaid postage of priority mail in the amount of 571,207 Euros (877,484 Euros on 31 December 2022), whose revenue is expected to be recognised in April 2023 (estimate of 80% of the item's value) and the remaining during 2023, and to objects invoiced and not delivered on 31 March 2023 in the express segment, in the amount of 828,904 Euros (287,840 Euros as at 31 December 2022), whose revenue is recognised upon delivery in the following month.

The revenue recognised in the period, included in the balance of Contractual liabilities at the beginning of the period amounted to 895,533 Euros.

No “Assets resulting from contracts” associated with the application of IFRS 15 - Revenue from contracts with customers were recognised.

12. Cash and cash equivalents

As at 31 December 2022 and 31 March 2023, cash and cash equivalents correspond to the amount of cash, sight deposits, term deposits and cash investments on the monetary market, net of bank overdrafts and equivalent short-term bank financing, and is detailed as follows:

	31.12.2022	31.03.2023
Cash	71,794,674	91,530,490
Sight deposits	160,127,945	167,001,419
Demand deposits at Central Banks	38,636,396	15,821,204
Deposits in other credit institutions	59,140,984	53,842,078
Term deposits	126,769,299	260,813,591
Cash and cash equivalents (Statement of Financial position)	456,469,298	589,008,781
Sight deposits at Bank of Portugal	(23,185,900)	—
Outstanding checks / Checks clearing	(22,492,340)	(22,185,121)
Impairment of slight and term deposits	7,917	26,151
Cash and cash equivalents (Cash flow statement)	410,798,975	566,849,811

The caption “Sight deposits at Bank of Portugal” includes mandatory deposits in order to meet the legal requirements to maintain a minimum cash reserve in accordance with the provisions of Regulation (EU) No. 1358/2011 of European Central Bank of 14 December 2011, which states that the minimum cash requirements kept as demand deposits at Bank of Portugal amounts to 1% of the average amount of deposits and other liabilities, over each reserve maintenance period. As at 31 March 2023, the daily average of the minimum mandatory availability for the period in force was 22 468 800 Euros.

Therefore, the item Demand deposits at Bank of Portugal includes, as at 31 March 2023, a total amount of demand deposits of 15,821,204 Euros (31 December 2022: 38,636,396 Euros). The change in this caption is justified by a lower cash availability explained by a reduction in customer deposits.

As of the reserve counting period that began on 30 October 2019, the ECB introduced the tiering regime, which exempted part of the excess reserves deposited by credit institutions with the central bank from the negative remuneration then associated with the deposit facility rate. The tiering ceased to apply on 27 July 2022, following the European Central Bank Governing Council's decision to increase the deposit facility rate to a non-negative amount.

Within the scope of the tiering system, all credit institutions subject to the minimum reserve system have an excess reserve limit which is effectively remunerated at a rate of 0%. This limit is based on a multiple applied to the amount of the minimum reserves to be met, adopted by decision of the ECB Governing Council, and subject to change by it.

The tiering system came into effect with a multiple of six. At its meeting on 8 September 2022, the Governing Council decided to suspend this system, setting the multiplier to zero.

The caption "Outstanding checks/ Checks clearing" represents checks drawn by third parties on other credit institutions, which are in collection.

	Quantity	Amount	Average Price
Balance 31 December 2022	2,935,000	10,826,390	3.69

At the meeting of the Company's Board of Directors held on 16 March 2022, and as communicated to the market on the same date, it was unanimously decided to approve the implementation of a Buy-back programme for the Company's own shares, including the related terms and conditions, with the sole purpose of reducing the related share capital through the cancellation of shares acquired under the aforementioned programme, subject to prior approval by the General Meeting.

Thus, at the General Meeting held on 21 April 2022, the share capital reduction of up to 2,325,000 Euros was approved, with the purpose of releasing the excess of share capital, through the extinction of up to 4,650,000 shares representing up to 3.1% of the share capital already acquired or that were to be acquired within the scope of a share buyback programme. The maximum monetary amount of the approved Buyback Programme was 18,000,000 Euros.

Subsequently, on 27 July 2022, and still within the scope of the authorisation granted at the Annual General Meeting of Shareholders held on 21 April 2022, the Company's Board of Directors deliberated to increase the maximum pecuniary amount and number of shares that could be acquired under the share buyback programme of the **Company**, as follows:

- Maximum pecuniary amount of the Buy-back Programme: it is increased by 3,600,000 Euros, now being up to 21,600,000 Euros;
- Maximum number of shares to be acquired under the Buy-back Programme: it is increased by 1,900,000 shares, being now up to 6,550,000 CTT's shares, representing up to 4.37% of the respective share capital.

The other terms and conditions of the Buy-back Programme approved by the Board of Directors and the Annual General Meeting held in 2022 and communicated on 16 March 2022 remained unchanged.

The Buyback Programme started on 17 March 2022 and would last until 18 December 2022 unless, however, the maximum number of shares to be acquired or the maximum pecuniary amount of the Buyback Programme were reached, which happened to 8 September 2022, thus ending before the end of its maximum duration period.

Considering the resolution of the General Meeting of 21 April 2022 which authorised the reduction of the share capital, and the acquisition of own shares having been fulfilled for this purpose, the commercial register was registered, on 7 November 2022, reduction of the **Company's** share capital in the amount of 2,325,000 euros, through the extinction of 4,650,000 own shares, as explained in note 14.

As at 31 December 2022 and 31 March 2023, the Company held, as a result of the acquisition and cancellation operations indicated herein, an accumulated amount of 2,935,000 own shares, representing 2.02% of the share capital, including 1,500,001 of own shares previously acquired, with par value of 0.50 Euros, with all inherent rights related to suspended shares, with the exception of those relating to the receipt of new shares in the case of capital increase by incorporation of reserves, as provided for in article 324(1)(a)) of the Commercial Companies Code.

Considering that the Company's Annual General Meeting held in 2022 only approved the extinction of up to 4,650,000 own shares corresponding to 3.1% of the share capital, the General Meeting held on 20 April 2023 approved the capital reduction for cancellation of the remaining 1 434 999 shares acquired under the buy-back programme referred to above.

Own shares held by CTT are within the limits established by the Articles of Association of the Company and by the Portuguese Companies Code. These shares are recorded at acquisition cost.

Legal reserves

The commercial legislation establishes that at least 5% of the annual net profit must be allocated to reinforce the legal reserve, until it represents at least 20% of the share capital. This reserve is not distributable except in the event of the liquidation of the Company but may be used to absorb losses after all the other reserves have been depleted or incorporated in the share capital.

Own shares reserve (CTT, S.A.)

The commercial legislation Code obliges, within the scope of the own shares regime provided in article 324, the existence of a reserve equal to the amount for which the shares are accounted for, which becomes unavailable as long as these shares remain in the company's possession. Additionally, applicable accounting standards determine that gains or losses on the sale of own shares are booked in reserves.

As at 31 March 2023, this caption includes the amount of 10,826,390 Euros related to the creation of an unavailable reserve for the same amount of the acquisition price of the own shares held.

Other reserves

This caption records the profits transferred to reserves that are not imposed by the law or articles of association, nor constituted pursuant to contracts signed by the Company.

On 27 September 2017, a financing contract between CTT and BBVA and Bankinter was signed, for an initial period of 5 years and for a total amount of 90 million Euros, with the possibility of using the funds until September 2018. As no amount was used until the mentioned date, the contract was renegotiated on 27 September 2018, having the total amount been altered to 75 million Euros, while maintaining the one-year term for the use of the funds. Subsequently, due to the non-use of all the funds, the limit was reduced again to 33.250 million euros. As at 31 March 2023, the referred used amount, net of commissions and added by the amount of interests to be paid in the following period corresponded to 33,101,483 Euros. By the Group decision, the remaining available amount will not be used.

On 22 April 2019, a simple credit agreement was signed between CTT and Novo Banco for a period of 60 months, with a grace period of two years, and may be extended for a period of 24 months, for a total amount of 35 million Euros. On 31 December 2022, the limit was reduced to 28 million euros, due to non-use of all funds. As at 31 March 2023, the 28 million Euros were used and are presented in the statement of financial position net of commissions and added by the amount of interests to be paid in the following period, in the total amount of 28,400,987 Euros.

As disclosed to the market on 7 March 2023, CTT contracted 35 million euros in bank loans in the form of commercial paper, indexed to sustainability goals, maturing in 2026, with two financial institutions - Novo Banco, S.A. and Banco Bilbao Vizcaya Argentaria S.A. - Portuguese Branch.

These bank loans are set within CTT's Sustainability Related Financing Reference Framework that was the subject of a Second Party Opinion disclosed by S&P Global Ratings. Therefore, the referred financing lines are indexed to the goal of reducing carbon emissions of CTT's activity (scopes 1, 2 and 3 emissions) by at least 30% by 2025 in relation to 2013, which is validated by the Science Based Targets initiative and aligned with the best practices of the sector.

With these operations, CTT consolidates the link between its financing cost and its performance in terms of sustainability, reinforcing and demonstrating its strategic relevance and the commitment to achieve ambitious leadership goals regarding ESG (Environment, Social and Governance) indicators.

As at 31 March 2023, the amount used presented in the statement of financial position, net of commissions and plus the amount of interest to be paid in the following period, amounts to 14,887,955 Euros in the case of BBVA/Bankinter and 19,920,479 Euros in Novo Banco. These commercial paper programmes are shown in non-current liabilities, since the Group's practice/expectation will be to use the contracts during their period of validity and having the right to roll-over these loans.

Bank loans obtained are subject to compliance with financial covenants, namely clauses of Cross default, Negative Pledge and Assets Disposal's limits. Additionally, the loans obtained also require compliance with ratios of Net Debt over EBITDA and financial autonomy. Compliance with financial covenants is regularly monitored by the Group and is measured by counterparties on an annual basis based on the Financial Statements as at 31 December. As at 31 December 2022, the Group is in compliance with financial covenants.

A provision should only be used for expenditures for which the provision was originally recognised, so the Group reverse the provision when it is no longer probable that an outflow of resources that incorporate future economic benefits will be necessary to settle the obligation.

Litigations

The provisions for litigations were set up to face the liabilities resulting from lawsuits brought against the Group and are estimated based on information from their lawyers as well as on the termination of the mentioned lawsuits. The final amount and the timing of the outflows regarding the provision for litigations depend on the outcome of the respective proceedings.

The reversal of the provision for litigations, in the amount of (1,304,899) Euros as at 31 December 2022 and (246,011) Euros as at 31 March 2023, essentially results from lawsuits whose decision, which was made known in the course of 2022 or 2023, respectively, proved to be favourable to the Group, or, not being favourable, resulted in the condemnation to pay amounts that proved to be lower than the estimated amounts (and reflected in this provision caption).

Onerous contracts

The provision for onerous contracts is intended to cover contracts in which the unavoidable costs of meeting the obligations of the contracts exceed the economic benefits that are expected to be received under them, amounting at 31 March 2023 the amount of 86,137 euros.

Other provisions

As at 31 December 2022, the amount of 3,780,356 Euros provisioned in previous years to cover possible contingencies related to labour litigation actions not included in the current court proceedings, related to remuneration differences that could be claimed by workers, was fully reversed, as it is understood that the probability of outflows associated with these contingencies is currently remote.

As at 31 March 2023, a provision is recognised in CTT Expresso branch in Spain to face the notification issued by the Spanish National Commission on Markets and Competition. This process was originated during the year 2016, based on the alleged contrary action to article 1 of the Law 15/2017 ("Law on Competition Defense") and article 101° of the Treaty on the Functioning of the European Union ("TFUE"). This notification amounted to 3,148,845 Euros and, in previous years, has already been subject of an appeal to the Spanish Audiencia Nacional (National High Court). Regarding this matter,

Tourline (currently designated as CTT Expresso branch in Spain) submitted a formal request to the coercive measure suspension, and the request was accepted under the condition of a guarantee presentation – a procedure that was duly and timely adopted by Tourline. During 2022, the Spanish Audiencia Nacional dismissed the appeal and ratified the fine of 3,148,845 Euros plus final and unappealable costs. Regarding this subject, the provision booked in previous years, which amounted to 1,400,000 Euros, was increased by 1,800,000 Euros, amounting at 31 December 2022, the amount of 3,200,000 Euros and results from the evaluation carried out by the **Group's** legal advisors. As at 31 March 2023, no relevant developments had occurred, with the provision remaining in the amount of 3,200,000 Euros.

The amount provisioned in 321 Crédito, S.A. amounting to 918 285 Euros as at 31 March 2023 (741,641 Euros at 31 December 2022) mainly results from the management assessment regarding the possibility of materialising tax contingencies and other processes.

As at 31 March 2023, in addition to the previously mentioned situations, this caption also includes:

- the amount of 269,827 Euros to cover costs of dismantlement of tangible fixed assets and/or removal of facilities and restoration of the site;
- the amount of 664,872 Euros, which results from the assessment carried out by management regarding the possibility of materialising contingent amounts to be paid to third parties under the scope of contracts entered into;
- the amount of 309,007 Euros regarding the liability, recognised in the company CTT Expresso, with a labour legal proceeding;
- the amount of 2,025,666 Euros to cover costs of operational vehicles restoration;
- the amount of commitments for guarantees provided to third parties to cover promotional contests in the amount of 590,060 Euros.

As at 31 December 2022, regarding the new agreements performed during 2022, an amount of 1,250,000 Euros was transferred to the caption employee benefits in the statement of financial position. Long-term variable remuneration ("LTVR")

The Long-term variable remuneration model for the 2020/2022 term of office is based on the participation of the executive Directors in the Options Plan, which is set out in the remuneration policy proposal approved by the Annual General Meeting of 21 April 2021 and based on the proposal of the Remuneration Committee.

Similarly, the Board of Directors put in place a Options Plan programme addressed to CTT's top management, using the same terms of the programme approved for the governing bodies members.

The Options Plan mentioned provides for the following main rules applicable to the allocation and exercise of the options and the financial settlement, and delivery and retention of the shares within the LTVR:

- a. The Options Plan regulates the allocation to its participants of options which confer the right to allocate shares representing CTT's share capital, subject to certain conditions applicable to the exercise and settlement of the options;
- b. The Options Plan sets out the number of options allocated that may be exercised by the Plan's participants (the CEO, the CFO, the remaining executive Directors and the Top Manager), according to the table forward, the date of attribution corresponding to the date of the referred plan's approval at the General Meeting;
- c. The Options Plan sets five tranches of options that differ only by their different exercise price or strike price, as shown in the table below:

Tranche	Number of options - per participant			Exercise Price or Strike Price
	CEO	CFO	Other executive administrators	
1	700,000	400,000	300,000	€ 3.00
2	700,000	400,000	300,000	€ 5.00
3	700,000	400,000	300,000	€ 7.50
4	700,000	400,000	300,000	€ 10.00
5	700,000	400,000	300,000	€ 12.50

In the case of the Top Management, the Board of Directors approved the attribution of a global number of 1,200,000 options, subject to the conditions defined for the governing bodies.

- d. The exercise date of all the options is 1 January 2023, given the end of the 3-year term of office 2020/2022;
- e. The number of CTT shares eventually to be awarded to the participants (via physical or financial settlement pursuant to the terms of the Options Plan), following the automatic exercise of the options on the exercise date as foreseen on the Options Plan, depends on the difference between the exercise price (strike price) and the Share Price (i.e., the average price, weighted by the trading volume, of the Company's shares traded on the Euronext Lisbon regulated market in the sessions carried out in the 45 days prior to the exercise date, i.e., on 1 January 2023) and results from the application of the following formula:

No. of Shares = No. of Options Exercised x [(Share Price - Exercise Price (Strike Price)) / Share Price]

Thus, subject to the eligibility conditions and the retention mechanism referred below, each participant is entitled to receive the total number of CTT shares resulting from the sum of the number of shares due for each tranche, calculated according to the referred formula.

- f. The Executive Committee Options Plan provides for the financial settlement of 25% of the options (cash settlement) and the physical settlement of 75% of the options (equity settlement), without prejudice to, exceptionally and in a scenario where the number of own shares held by CTT is not sufficient, determining that the Remuneration Committee establishes a compensation mechanism through the allocation of a cash amount and financial settlement of the options whose physical settlement is not possible. The plan for CTT's Top Management provides for the physical settlement of 100% of the options;
- g. In the event that shares are granted depending on stock market performance and the Company's positive performance as defined in the plan, the options will be subject to settlement over the deferral/retention period;
- h. 50% of the LTVR is settled on the fifth trading day immediately following the date of the annual general meeting of the Company approving the accounts for the 2022 financial year to be held in 2023, subject to verification of positive performance with respect to each of the 2021 and 2022 financial years, half by way of financial settlement in cash, in the case of the Executive Committee, (i.e. 25% of the options on a pro rata basis with respect to each of its 5 tranches) and the other half (i.e. 25% of the options also on a pro rata basis with respect to each of its 5 tranches) by way of physical settlement through the delivery of CTT shares. In the case of Top Management, the 50% of the LTVR settled on this date will be settled through the physical delivery of CTT shares;
- i. The remaining 50% of the LTVR (i.e. 50% of the options equally on a pro rata basis with respect to each of its 5 tranches) are settled through the delivery of CTT shares (physical settlement), in 2 tranches of 1/2 of the shares retained, respectively: (i) on the fifth trading day immediately following the end of the month after the date of approval of the accounts relating to financial year 2023 at an annual general meeting of the Company to be held in 2024, or on 31 May 2024 (whichever date occurs later) and subject to the positive performance of the Company in each of the financial years 2021 to 2023; and (ii) on the fifth trading day immediately following the end of the month after the date of approval of the accounts for the financial year 2024 at an annual general meeting of the Company to be held in 2025, or on 31 May 2025 (whichever date occurs later) and subject to the positive performance of the Company in each of the financial years 2021 to 2024, respectively for each tranche.
- j. The exercise of the options and their settlement are also subject to the eligibility conditions, namely, remaining in office during the term of office by rule, absence of situations of material non-compliance with the Options Plan, and no situations giving rise to the application of the adjustment mechanisms);

On the grant date, the fair value of the options granted was determined through a study carried out by an independent entity on the grant date. The model used for the valuation of the stock plan was the Monte Carlo simulation model.

For the cash-settlement component, the the liability amount is updated at the end of each reporting period, depending on the number of shares or share options awarded and their fair value at the reporting date, based on a study carried out by an independent entity. The liability amount determined in the study on 31 December 2022 amounted to 179,583 Euros, which led to the reversal of an amount of 231,847 Euros in the staff costs caption in the period of 2022.

In the period ended 31 December 2022, the amount recognised in staff costs amounted to 1,388,153 Euros, of which (231,847) Euros corresponds to the cash settlement component and 1,620,000 Euros corresponds to the equity instrument settlement component (Note 15).

Taking into account the end of the three-year term of office 2020/2022, the Remuneration Committee, in accordance with the Options Plan, has determined, on 1 January 2023, the number of shares to be attributed to each participant as LTVR (which attribution and settlement being subject to the rules set out in the Options Plan, described above). This determination was made through a study carried out by an independent entity.

For this purpose, the Share Price was calculated, based on the criteria described above, with the value of 3.168647 Euros was set as the value of the share for the purposes of the final calculation of the shares to be attributed.

In accordance with point 5.4.1 of the Options Plan, the Remuneration Committee determined that the Strike Prices shown in the table above should be adjusted to the distribution of dividends during 2021 and 2022, in accordance with the following formula:

Adjusted Strike Price = Previous Strike Price - shareholder remuneration per Company share x (1 - % of treasury shares of the Company)

According to the formula above, the adjusted Strike Prices corresponding to each tranche were updated in accordance with the table below:

Tranche	Number of options - per participant			Exercise Price or Strike Price
	CEO	CFO	Other executive administrators	
1	700,000	400,000	300,000	€ 2.799139
2	700,000	400,000	300,000	€ 4.799139
3	700,000	400,000	300,000	€ 7.799139
4	700,000	400,000	300,000	€ 9.799139
5	700,000	400,000	300,000	€ 12.299139

In accordance with the conditions of the Options Plan, and taking the Share Price of 3,168647 Euros mentioned above as a reference, only the Exercise Price (Strike Price) of the first tranche was taken into account, since the Share Price did not reach the Exercise Price (Strike Price) of the second tranche. Thus, the following formula was applied to determine the number of shares:

$(\text{Share Price} - \text{Strike Price}) / \text{Share Price} = (3,168647 - 2,799139) / 3,168647 = 0.116614$

Considering the above, each option was entitled to the attribution of 0.116614 shares which, multiplied by the number of options attributed to each participant, gave rise to the attribution of the following number of shares to each participant by way of LTVR:

Participant	CEO	CFO	Other executive directors (three members)	Total
Shares	81,629	46,645	104,949	233,226

In the case of Top Management, a total of 127 103 shares to be awarded were calculated.

As mentioned above, providing for the Option Plan, in the case of the Board of Directors, the financial settlement of 25% of the shares attributed (cash settlement) and the physical settlement of 75% of the same (equity settlement), 50% of the shares attributed as LTVR were settled on the fifth trading day

immediately after the annual general meeting of the Company that approved the accounts for the 2022 financial year, held on 10 April 2023, half through financial settlement in cash and the other half through of physical settlement through the delivery of CTT shares to participants. In the case of top management, 50% of the shares awarded were paid through physical settlement on the same date. The remaining 50% of the allocated shares are subject to the deferral and retention mechanisms explained above.

As at 31 March 2023, and considering that the plan options were exercised on 1 January 2023, there was no change in the fair value of the cash settlement component. Likewise, in the case of the physical settlement component, and considering the exercise date of the options, this was fully recognised in 2021 and 2022, with no impacts recorded with reference to 31 March 2023..

Annual variable remuneration ("AVR"):

In the period ended 31 December 2021, the amount of 1,447,419 Euros was recognised as an estimated annual variable remuneration for members of the Governing Bodies. Group	31.12.2022		31.03.2022

CTT – Expresso, S.A., branch in Spain	77,006,639	—	79,092,200	—

Total	92,226,071	2,758,113	93,445,080	3,014,327

Regarding CTT – Expresso, S.A., branch in Spain (prior Tourline), the tax losses of the years 2008, 2009 and 2011 may be reported in the next 15 years, the tax losses related to 2012, 2013 and 2014 may be carried forward in the next 18 years and the tax losses of the years 2015, 2016, 2017, 2018,

2019, 2020, 2021 and 2022 have no time limit for deduction. No deferred tax assets associated with CTT Expresso branch in Spain's tax losses were recognised, given its losses history.

Regarding to CTT Expresso/ Transporta, the tax losses presented refer to the losses of Transporta for the years 2014 and 2015 and 2017 and 2018, since in 2019 this company was incorporated into CTT Expresso, which can be reported in the next 14 years (previously 12 years, but extended to 14 years under exceptional measures approved to deal with adverse consequences caused by the COVID Pandemic), for the years 2014 and 2015 and 7 years (previously 5 years, but extended to 7 years within the scope of exceptional measures approved to deal with adverse consequences caused by the COVID Pandemic) for the years 2017 and 2018. The recognition of deferred tax assets related to Transporta's tax losses is supported by the estimate of future taxable profits of CTT Expresso, based on the company's 8-year business plan (ie, until 2030).

It should be noted that, following the acquisition of Transporta, a request was made to maintain the tax losses that had been determined with reference to the periods of 2014 and 2015 (in the amounts of 4,536,810 Euros and 3,068,088 Euros, available for reporting until 2028 and 2029, respectively), for which a favourable response was obtained from the Tax Authority during 2021.

It should be noted that, following the acquisition of HCCM – Outsourcing Investment, S.A, a request was made to maintain the tax losses that had been determined with reference to the periods from 2015 to 2020 (in the total amount of 1,300,311 Euros), in relation to which awaits a favourable response from the Tax and Customs Authority during the three-months period ended 31 March 2023. Therefore, in the three-month period ended 31 March 2023, the related deferred tax asset was recorded. It should be noted that, as previously mentioned, HCCM – Outsourcing Investment, S.A. was merged by incorporation into the entity CTT Soluções Empresariais, S.A., with reference to 1 January 2022.

Law No. 24-D/2022, of December 30 – “OE 2023” – includes a rule, identified as promoting the principle of solidarity between financial years (logic of continuity of business cycles), which determines the end of time limit for reporting tax losses calculated in previous years.

Despite being a rule for application to financial years beginning on or after 1 January 2023, the calculation of deferred tax on 31 December 2022 in respect of tax losses was considered rational.

In another sense, the percentage of the amount of deductible tax losses in each financial year is reduced from 70% to 65%, therefore it is expected that Companies will take longer to take advantage of the deduction of tax losses.

The sensitivity analysis performed allows us to conclude that a 1% reduction in the underlying rate of deferred tax would imply an increase in the income tax for the period of about 2.73 million Euros.

SIFIDE

The Group recognises an estimate of the tax credit that was submitted for certification by the competent authority (ANI – Agência Nacional de Inovação) in the period to which the investments relate.

Regarding to R&D expenses incurred by the Group in the 2020 financial year, with the submission of the application, these amounted to approximately 5,304,741 Euros, with the Group having the possibility of benefiting from a income tax deduction estimated at 3,850,195 Euros. As at 31 March 2023, the tax credit for the year 2020 is already fully deferred by the Certifying Commission (ANI).

Regarding R&D expenses incurred by the Group in the financial year of 2021, with the submission of the application, these amounted to the amount of 6,474,190 Euros, with the Group having the possibility of benefiting from a income tax deduction estimated at 3,816,703 euros. During the first three months of this year, the Certifying Commission granted, in relation to the 2021 financial year, two tax credits in the

global amount of 577,893 Euros, and the Group is currently awaiting receipt of the declarations relating to the remaining amount.

As for the financial year 2022, the Group is still identifying and quantifying the expenses incurred with R&D that will integrate the applications that will be submitted during the year 2023.

Other information

Pursuant to the legislation in force in Portugal, income tax returns are subject to review and correction by the tax authorities for a period of four years (five years for Social Security), except when there have been tax losses, tax benefits have been received, or when inspections, claims or challenges are in progress, in which cases, depending on the circumstances, these years are extended or suspended. Therefore, CTT's income tax returns from 2019 and onwards may still be reviewed and corrected.

The Board of Directors believes that any corrections arising from reviews/inspections by the tax authorities of these income tax returns will not have a significant effect on the consolidated financial statements as at 31 March 2023.

27. Related parties

The Regulation on Assessment and Control of transactions with CTT related parties defines related party as: qualified shareholder, manager, subsidiaries companies' managers or third party with any of these related through relevant commercial or personal interest (under the terms of IAS 24) and also subsidiaries, associates and joint ventures of CTT. Additionally, "close family members" are: (i) the spouse or domestic partner and (ii) the children and dependents of the person and persons referred to in (i).

According to the Regulation, the significant transactions with related parties, as well as transactions that members of the Board of Directors of CTT and/or its subsidiaries conduct with CTT and/or its subsidiaries, must be previously approved by resolution of Board of Directors, preceded by a prior favourable opinion of Audit Committee, except when included in the normal company's business and no special advantage is granted to the director directly or by an intermediary. Significant transaction is any transaction with a related party whose amount exceeds one million Euros, and / or carried out outside current activity scope of CTT and / or subsidiaries and / or outside market conditions.

The other related parties' transactions are approved by Executive Committee, to the extent of the related delegation of powers, and subject to subsequent examination by the Audit Committee.

28. Other information

As announced to the market on 26 January 2023, an update of the price of the basket of letter mail, editorial mail and parcels services covered by the Universal Postal Service Price Convention, corresponding to an average annual price variation of 6.58%, took effect as from 1 March 2023. This update corresponded to an average annual price variation of 6.58%. The overall average annual price variation, also reflecting the effect of the update of special prices for bulk mail, is 6.24%.

With regard to the legal proceedings relating to ANACOM's Decision regarding the quality of service parameters and performance targets applicable to the universal postal service provision, of July 2018, the Government's appeal against the decision of the Arbitration Court continues. This decision acknowledges that ANACOM's decision constituted an abnormal and impressionable change in

circumstances, causing damages amounting to 1,869,482 euros. The administrative actions against ANACOM, the first concerning the same decision and the second concerning the deliberation of December 2018 regarding the new measurement procedures to be applied to the indicators, had no developments.

As CTT appealed the decision to apply a fine of 153,750 euros for twenty-six administrative offences related to the non-compliance with postal network density targets and minimum service offers, and the publication of quality of service indicators and information on prices charged at various postal establishments in 2014 and 2015, the Lisbon Court of Appeal reduced the fine to 57 thousand euros. As CTT disagreed with the grounds of the decision that upheld some of the administrative offences, it appealed to the Constitutional Court on 23 February 2023. This process is still at the appeal stage. The administrative offence proceeding of which CTT was charged by ANACOM for alleged violation of the measurement procedure of the quality of service indicators (IQS) in 2016 and 2017 is ongoing.

Following the proposal to apply contractual fines in the amount of 753 thousand euros, on 4 August 2022, CTT requested the constitution of an arbitration court, under the terms of the concession agreement. The arbitration court has been constituted and the process is underway. For the same facts, CTT had already been notified of the filing of an administrative offence proceeding on 30 August 2021, which is running its course, with no developments, following the presentation of the respective defences. On 23 February, CTT was notified to comment on a new proposal for the application of contractual fines submitted by ANACOM to the Government, in relation to the alleged contractual breach of the quality of service obligation in the years 2016, 2017, 2018 and 2019. CTT submitted its comments on 6 April, in which it defends there is no basis in fact or in law for the ascertainment of any contractual liability and requests additional evidence. The application of contractual fines and the respective amount depends on the further steps of the administrative procedure.

A decision is awaited in the arbitration proceedings for the protection of CTT's rights filed by CTT against the Portuguese State on 11 June 2021. Specifically: (a) the impacts and contractual effects, namely compensatory (which CTT estimates to be approximately 23 million euros), of the COVID-19 pandemic, as well as of the public measures adopted in that context; and (b) the legal compatibility, impacts and contractual effects, namely compensatory (which CTT estimates to be approximately 44 million euros), of the decision to extend the concession agreement. The above mentioned figures correspond to the amounts to which CTT, with the data available at the time, considers to be entitled and are subject to update, assessment and decision in the process, which is ongoing.

There are no relevant developments in the lawsuits filed on 18 January 2022 by the companies Vasp Premium – Entrega Personalizada de Publicações, LDA. (Vasp) and Iberomail – Correio Internacional, S.A., (Iberomail) against CTT before the Competition, Regulation & Supervision Court, seeking the conviction of CTT for abuse of dominant position. CTT follows the best market practices and considers the request to be totally unfounded, as these lawsuits concern facts assessed by the Competition Authority (AdC) in the scope of a proceeding that was closed with the imposition of commitments, which CTT has implemented and reports annually to the AdC.

Strategic Partnership - Generali Seguros

On 6 November 2022, CTT - Correios de Portugal, S.A. and its subsidiary Banco CTT, S.A. entered into a strategic partnership agreement with Generali Seguros, S.A. (Tranquilidade/Generali Seguros).

The transaction concluded between the parties includes:

- Long-term distribution agreements, with 5-years exclusivity renewable periods, for the distribution by CTT and Banco CTT of life and non-life insurance products of Tranquilidade/Generali Seguros;

- Subscription by Tranquilidade/Generali Seguros of a 25 million euros reserved share capital increase in Banco CTT, in exchange for a shareholding of approximately 8.71%. A Shareholders' Agreement will provide Tranquilidade/Generali Seguros with minority interests with the size of the shareholding.

The agreement aims to combine the experience of Tranquilidade/Generali Seguros in the development and management of insurance products with the distribution capacity of CTT and Banco CTT through their nationwide networks coverage and digital channels. The insurance distribution agreements contemplate a fixed price by Tranquilidade/Generali Seguros of 1 million euros and 9 million euros to CTT and Banco CTT, respectively, to be settled in the initial six years, and additional contingent payments depending on the performance achieved over the term of the agreements.

The CTT Group expects that the transaction, which is subject to suspensive conditions, including approval by the banking and insurance regulatory authorities, will be completed by the end of 2023.
